

the one and only expert in
CAPITAL RELOCATION™

Your Ticket to a better Life

*Improved Private Life
Optimized Business
Protected Assets*

GLOBALUTION CONSULTING LLC

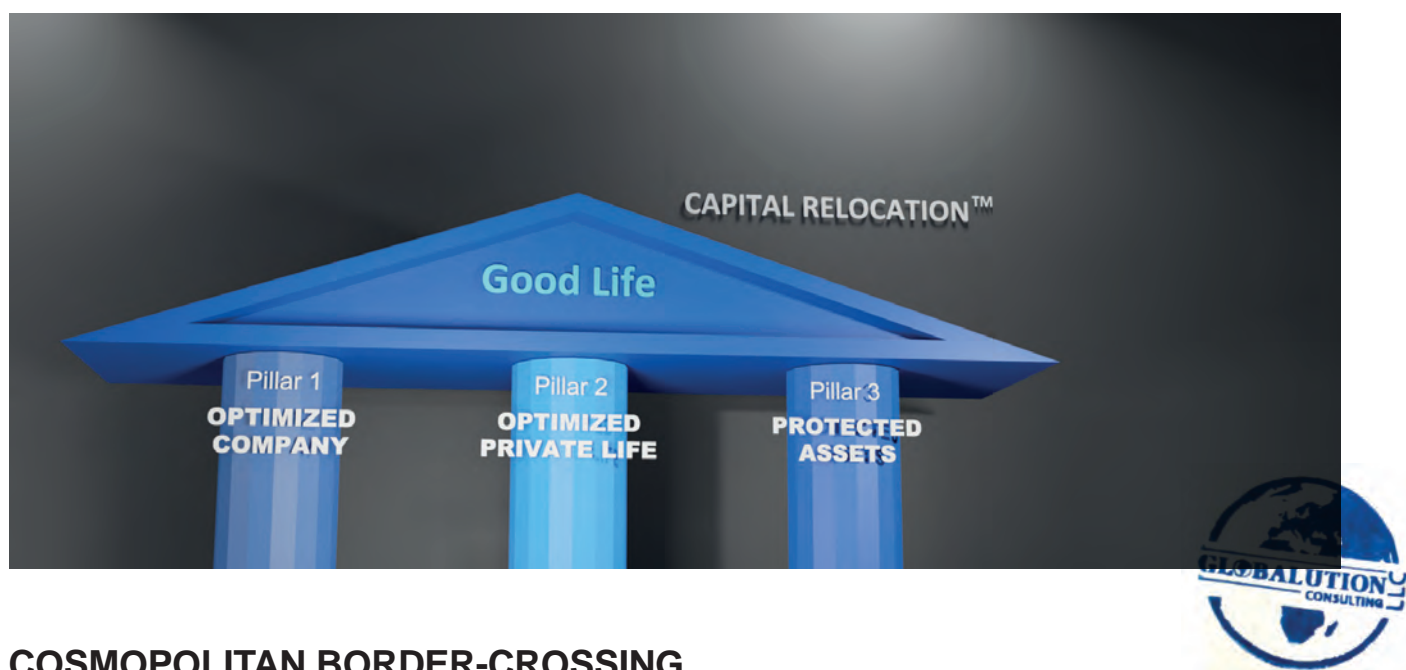

BRIEF INTRODUCTION

CAPITAL RELOCATION™

We are your ticket to a better life. **Globalution Consulting** is a Boutique Agency for entrepreneurs, investors, and HNWIs. We help people to lead a better life in greater freedom. As the experts in **Capital Relocation™**, we are your multinational and global compass.

Capital Relocation: THE THREE EXTERNAL PILLARS OF A GOOD LIFE

A good life has three external pillars: (1) an optimized (or newly formed and well-set) company, (2) an optimized private life, and (3) protected assets. **Capital Relocation™** refers to building these three pillars; building a good life: an endeavor in which we support you.

COSMOPOLITAN BORDER-CROSSING

How do you use and combine the advantages of existing systems? Which countries are suitable for which purposes? Why, how, and where should you restructure, optimize, or form a new company? Where should you live? What is your attitude towards taxes? How do you protect and augment your wealth? Do you prefer your home state or your freedom? Our independent, neutral, and objective advice is based on the 30+ most interesting jurisdictions.

* The Definition of Capital Relocation: "**Capital Relocation** is the modern art of tactically optimizing businesses and dynamically changing (a) legal company structures, (b) domiciles, and (c) wealth protection approaches in a global environment that is subject to constant change. The overall strategic goal is to preserve freedom, protect wealth, and optimize the constitution of capital and the lives of the capitalist elite."

WE DESIGN YOUR FUTURE

Globalution Consulting (1) analyzes your unique situation for free, (2) submits a tailor-made offer, (3) designs and presents individual and multinational solutions, and (4) stands by your side during their implementation. With our individual and compliant solutions, we accompany our protégés on their way to freedom; from the first global thought through the operational (or optimized) company to the dream residence of their children. Your world is what you make of it.

OUR CLIENTS AND THE FREE LIFE

We aim to develop a close, trustful, and everlasting relationship with our exclusive clients who consider themselves world citizens. We help (not only) HNWIs to globalize and to cultivate their lives and businesses while leading a truly cosmopolitan lifestyle - beyond the notion of borders. Our clients pursue happiness and execute their human right to freedom of movement. They move where life is good, operate businesses where success is appreciated, and know their assets are protected.

Immanuel Kant wrote: "There is only one innate right, Freedom (independence from being constrained by another's choice), insofar as it can coexist with the freedom of every other in accordance with a universal law". We appreciate stable places where the legislation is capable of understanding Kant and where, thus, civil rights are granted; where you and your family are relatively free and safe. We prefer places that guarantee solid property rights and have intact legal systems. If systems change then we help you to adapt and to change your setup accordingly.

© Globalution Consulting LLC. We offer a range of complementary services. For those services that appear to fall within the legal, tax or financial advisory spectrum, we provide the following information: The expert in Capital Relocation, Globalution Consulting LLC, gives general advice. We do not offer legal, tax, or financial advice, directly. Legal, tax, or financial advice are given by our local experts or by your trusted lawyer, tax or financial advisor. We are consultants: We give orientation and, thus, help clients to make the right decisions that can be executed either by us, with the help of our local experts, or with the help of the trusted experts of the respective client. Our service does not replace professional legal, financial, or tax advice (to which we will provide you with access if required). The use of our products and services is governed by our Terms & Conditions and by our Privacy Policy (the recent version can be found on our website).
